|--------------------------------|---|
| Course name: | Escape Breathing Apparatus Operators Foundation |
| Course Description: | A half day session covering the use of Escape Breathing Apparatus (EBA) often referred to as Emergency Escape Breathing Devices (EEBD). |
| Recommended attendance: | Personnel of industrial companies who may have cause to use EBA in their workplace. |
| Aim: | To train staff in the safe use of the EBA to enable them to escape from a toxic atmosphere, especially in the initial stages of an emergency. |
| Learning objectives: | Having completed the course the delegates will be able to: <ul style="list-style-type: none">▪ Describe the reasons for the use of EBA in their work.▪ Discuss various types of irrespirable atmospheres.▪ Describe the physiology of respiration.▪ Understand the types of EBA and respiratory protection available.▪ Carry out the correct checking procedures of the EBA.▪ Carry out the donning and operating procedures correctly and safely.▪ Identify a fault if one occurs and know the correct reporting procedure.▪ Operate the set correctly and safely in a practical situation.▪ Make the correct records of use and maintenance as required by legislation. |
| Subjects Covered: | <ul style="list-style-type: none">▪ Description and overview of the equipment▪ Safety & Environmental considerations▪ Limitations & Principals of Use▪ Pre Use/daily/monthly inspections▪ Operating & Donning Procedure & Practice▪ After Use Procedures |
| Method: | The learning objectives will be achieved by theoretical and practical input supported by OHP transparencies, delegate's notes and operational equipment. |
| Assessment: | Assessment will be both practical throughout the course and theoretical by a written test which will be set to ensure a satisfactory level of competence has been achieved. A Certificate will be awarded to delegates who reach the required standard. |
